

Welcome to the IDEAS-TVET Fashion Design & Garment Making Training

A free practical skills development
programme facilitated by Modish
Formals Ltd in Abuja

Welcome Message

"Ten years ago, I chose fashion over approval. My parents didn't see what I saw, but I did not wait for permission to pursue what I knew was mine. I kept going, and that decision has taken me further than I could have mapped out on my own. What started as a personal conviction has grown into something that serves not just my own story, but others around me, and a craft that contributes to this nation's creative economy."

If you are reading this as a student, I need you to understand something: you are sitting on an opportunity most people spend their whole lives looking for. You may not feel it yet. That is fine. What matters is that you do not let the weight of doubt, of other people's expectations, or of your own fear cause you to walk past it. Resilience is not a gift. It is a decision you make every single day. Make Yours!"

About the Training

Programme: Fashion Design & Garment Making

Location: Abuja

Training Fee: 100% Free for selected trainee

Facilitator: Modish Formals Ltd

Available Slots: 150 trainees

Opportunity: Job placement consideration for top-performing trainees

The acceptance letter also confirms Modish Formals Ltd's commitment to delivering the programme in line with the standards, timelines, reporting requirements, and implementation guidelines of the IDEAS Project and Federal Ministry of Education.

Why This Training Matters

"This Is More Than a Training — It Is a Pathway to Opportunity"

This programme will help trainees:

1. Develop practical fashion and garment-making skills.
2. Build confidence in using sewing and production tools.
3. Understand quality finishing and professional standards.
4. Prepare for employment or self-employment opportunities.
5. Learn from an experienced fashion and garment production organization.
6. Compete for job placement opportunities through performance and commitment.

What You Will Learn

1. Fashion Design Basics.
2. Pattern Drafting.
3. Fabric Handling.
4. Cutting Techniques.
5. Garment Construction.
6. Industrial Sewing Techniques.
7. Finishing & Quality Control.
8. Measurement & Fitting.
9. Production Workflow.
10. Fashion Business Readiness.
11. Beading/Dress Embellishment.
12. Fashion Illustration.

Expectations From Every Trainee

"Your Commitment Matters"

Trainees are expected to:

1. Attend all training sessions.
2. Arrive on time.
3. Participate fully in practical exercises.
4. Respect trainers, classmates, and equipment.
5. Complete assigned tasks and assessments.
6. Maintain discipline and professionalism.
7. Communicate early if they have any challenge.
8. Take the training seriously from the first day.

Attendance & Performance Notice

Important Notice:

This is a fully funded training opportunity with limited spaces. Every selected trainee is expected to attend regularly, participate actively, and complete the programme.

Poor attendance, unserious behaviour, or repeated lateness may affect your continuation in the programme and your eligibility for job placement consideration.

Top-performing trainees may be considered for job placement opportunities based on attendance, attitude, skill development, discipline, and overall performance.

What to Bring

1. Valid ID (NIN, BVN & Passport Photograph)
2. Notebook and pen
3. Comfortable clothing suitable for practical work
4. Personal measuring tape, if available
5. Willingness to learn
6. Commitment to attend fully
